Quality DIY Drain Cleaners still made in the USA

Drum

Don't look off-shore for DIY drain cleaning tools. You can find top quality drain cleaning tools made right here in the USA by General Pipe Cleaners. In business since 1930, we are a third generation family owned company that manufactures a full line of drain cleaning tools designed for the do it yourself market, including drain augers, drum augers, toilet augers, flat sewer rods, and inexpensive power drain cleaners for the home handyman. General snakes and components are made of high quality steel, making them the most durable in the industry. All are presented in attractive full color packaging with instructions in English, Spanish, and French. Proudly made in the USA. This catalog will help you choose the tool you need to solve your clogged drain problem. For more information, contact the Drain Brains® at General.

Deluxe Spin-Thru™

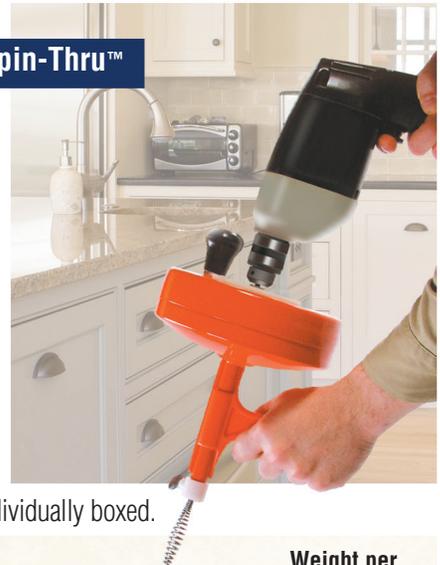

This top of the line drum auger features a rugged steel drum. The 1/4" (6 mm) snake is fed out of the drum into the line, keeping it away from clean kitchen and bathroom surfaces. A "T" grip handle for more convenient use in laundry tubs. Complete directions on back of card. Also available individually boxed.

Drain Augers

For the Do It Yourself Market

Premium Drain Auger

Increase drain auger sales by ordering Premium Drain Augers with these attractive tamper-resistant plastic display bags. Complete directions on the back in English, French and Spanish. These models have professional-type sliding crank handles with smoothly working hand grips. This feature gives the augers a more attractive, high quality appearance.

The handle is formed from heavy-wall tubing and the thumb screw is 1/2" (13 mm) long x 1/4" (6 mm) for solid gripping without thread stripping. In addition, the handle has a good offset for greater turning leverage.

Made from high tensile bright wire. 1/4" (6 mm) augers have basin plug head for easy threading through strainer. 3/8" (10 mm) and 1/2" (13 mm) augers have large bulb-shaped corkscrew boring head.

Drain Cleaning Tools

For the Do It Yourself Market

Drill Snake

Made in USA

An innovative tool that attaches to an electric drill. The snake is encased in a plastic tube that remains stationary as the snake is rotated by an electric drill. For safety, the unit is equipped with an automatic clutch that slips if the boring head gets caught in the line.

Flood-Guard™

Prevents basement flooding. Operates like a check valve to seal off water back-up caused by overloaded sewers. Water flows normally through the drain until the sewer begins to back up. Then the Flood-Guard float rises to seal off the drain opening until the water recedes. Installs in minutes. For extreme, extended pressure (for instance, where home-made seals have popped out of the line) we recommend our standpipe models. Gaskets are made of molded rubber, and all metal parts are plated or stainless steel.

AutoCut® Copper Tubing Cutter

Quicker than conventional cutters. Just snap it on the tube, close the gate and turn. The cutter wheel automatically tightens as you turn the AutoCut – no knobs to twist. Long lasting hardened steel cutting wheels are easy to replace when the time comes. Get the Ratchet Turning Handle for extra leverage in awkward spaces.
