

AutoCut[®]

Copper Tubing Cutter

This is a great tool to have when you don't have enough swing room to use a full size tubing cutter. You can cut copper tubing with less than one inch of clearance. Or you can easily handle close stub-out work.

And it's quicker than conventional cutters. Just snap it on the tube, close the gate and turn. The cutter wheel automatically tightens as you turn the AutoCut – no knobs to twist. The cutter wheel is spring loaded to provide a constant cutting pressure, so you'll never accidentally crimp the tubing.

For extra leverage in awkward spaces, you can get a Ratchet Turning Handle. It slides over the AutoCut from either side for maximum ease of operation.

The AutoCut has long lasting hardened steel cutting wheels that are easy to replace when the time comes. Keep all three in your toolbox.

Watch out though, they'll spoil you.

Tight clearance? The Ratchet Turning Handle is a real knuckle saver. Just slide it over the AutoCut for extra turning leverage.

Do stub-out work closer to the wall than conventional pipe cutters because there's no turning handle to get in your way.

Catalog Number	For use with:	Standard Pack
ATC-12 Copper Tubing Cutter	1/2" (13 mm) copper tubing*	12
ATC-34 Copper Tubing Cutter	3/4" (20 mm) copper tubing*	12
ATC-100 Copper Tubing Cutter	1" (28 mm) copper tubing*	12
RH-12 Ratchet Handle	ATC-12 1/2" Tubing Cutter	8
RH-34 Ratchet Handle	ATC-34 3/4" Tubing Cutter	8
ATCW Replacement Cutter Wheels	ATC-12, ATC-34 and ATC-100	12

*Not for use with soft copper. AutoCut Patent No. 5903980 – Canada Patent No. 2187868
