**Flexicore® Cable**

Wire Rope Center Construction
Heavy-gauge wire coiled tightly around 49-strand aircraft-type wire rope and heat treated. Has unequalled strength and the right amount of flexibility. So tough it carries a one-year warranty against defect or breakage. Flexicore Patent Nos. 2,244,735 and 2,849,870.

**Sectional Cables**
Sections for Model 88 and Rodrunner come in the all-purpose Flexichain which has a chain center, a stiffer Proflex which has a spring center, and a hollow style. Choose from three coupling styles. They snap together in a second and are taken apart quickly with a spanner wrench or uncoupling key. With the more recently developed "G" connector, no torque is put on the locking pin when running in reverse, making it a durable coupling.

**General Flexicore® Cable with Male and Female Connector**
Snake Oil™
Protects your cables better than common lubricants. Its special rust inhibitor cuts through moisture and replaces it with a rust-resistant coating. In addition, Snake-Oil gives your equipment a fresh, clean smell.
