Tired of carrying your drain cleaning machine to the jobsite? Now you don't have to. General's new Mini-Rooter Pro sports wheels to make it easier for you to transport it to and from the job, and a folding handle for compact storage in your truck.

The Mini-Rooter Pro clears drains from rooftop to basement, including kitchen, bath, and laundry drains. This tough little machine really saves time and trouble. For instance, you can remove the drum in seconds for more portability or to switch to a different diameter cable – with no mess and no lost time.

The drum carries up to 75 ft of 3/8” or 1/2” Flexicore® cable to clear 2”, 3”, and most 4” lines. For small drain work, you can order your Mini-Rooter Pro with a J-Drum for handling smaller, more flexible cables. An optional Power Cable Feed drives and retracts the cable at up to 16 feet per minute.

Flexicore® Cable
Flexicore® cables are made of heavy-gauge wire coiled tightly around 49-strand aircraft type wire rope and heat treated. It has unequalled strength and the right amount of flexibility. So tough it carries a one-year warranty against defect or breakage.

Flexicore Patent Nos. 2,244,735 and 2,849,870

Power Cable Feed
A variable speed Power Cable Feed (optional) drives and retracts the cable at up to 16 feet per minute. Quickly adjusts between 3/8” and 1/2” cables without the need for tools or additional parts. Swings out of the way to make drum changing as easy as ever. For smoother performance, switch to the XP drum with inner drum cage.

Catalog Number PO-MR
Folding handle
The handle is tall enough to make it easy to roll to the job, yet it can be quickly folded to take up less room in your truck.
