The Easy Rooter Junior drives up to 100 feet of 1/2" Flexicore® cable to clear 2", 3" and most 4" drain lines.

A patented chuck secures the cable during operation. With a just a quarter turn, the chuck tightens firmly on the cable to secure it while the Easy Rooter Junior drives the cable into the line. It’s faster and easier to use than a thumb screw.

The reinforced powder coated steel frame is built to take heavy duty use and abuse. A special “roll bar” protects the motor when loading the machine into car trunk. The machine rolls easily to and from the job on 10" ball bearing wheels. And a passive wheel brake locks the machine in position on the job.

A folding handle quickly locks in place, making it much easier to roll to the job, without sacrificing the compact size needed for easy loading in a car trunk.

Power is supplied by a 1/3 hp capacitor motor with thermal overload protection. Standard safety features include an air actuated foot pedal, ground fault circuit interrupter, safety slip clutch, and instructional video.

**Specifications:**

- **Weight:** 65 lbs. without cable. (29 kg).
- **Cage Capacity:** 100 ft. x 1/2" Flexicore Wire Rope Center Cable.
- **Motor:** 1/3 hp heavy duty, capacitor start, thermal overload protection, Forward/Off/Reverse Switch.
- **Safety Slip Clutch:** Protects cable and operator.
- **Foot Pedal:** Uses air pressure, so there’s no electrical contact between pedal and motor.
- **Flexicore Cable:** Heavy gauge wire coiled tightly around 49-strand aircraft-type wire rope and heat treated.
- **Power Cord:** 20 ft., 3-wire; equipped with ground fault circuit interrupter.
- **Wheels:** 10" Semi-pneumatic tires, with roller bearings.
- **Leather Gloves:** With double-reinforced palm, for hand protection when guiding cable.
- **Cutter Set:** Arrow Head, 1-1/2" U-Cutter, 2" U-Cutter and Retrieving Tool. Others available. See Cutters & Cables.
- **Instructional Video Included.**
