

JM-1450 Electric Jet

Compact! Portable! Powerful!

The powerful JM-1450 electric water jet gives you as much pressure as you can get from an electric jet. It generates 1500 psi at 1.7 gallons per minute, yet the 1-1/2 hp motor pulls only 13 amps.

Vibra-pulse® on demand helps the hose slide around tight bends in small lines. This unique feature allows the flow rate to remain the same whether Vibra-pulse is on or off.

The JM-1450 is compact and portable. With an overall height of 34", the machine fits easily in the limited storage space of a contractor's truck. Need to be more compact? Simply remove the easily detachable hose reel and the height drops to just 14". The telescoping handle makes it easier to roll the machine to and from the job site.

A removable 150 ft. capacity hose reel with reel brake is mounted on a heavy duty frame with two 8" semi-pneumatic tires. Complete with tool box. An optional spray wand is available.

The hose reel detaches in seconds, to make the jet more compact and portable.

A convenient slide-out handle and eight inch wheels make it easy to roll the machine to and from the job.

Vibra-pulse®

This is what separates General's Jet-Set from ordinary pressure washers. Vibra-pulse breaks the initial tension between the surface of the hose and the walls of the pipe, helping the hose slide around tight bends and propels itself farther down the line. Vibra-pulse increases the cleaning power of electric jets, and is particularly useful in jetting around bends in small drain lines.

JM-1450 Specifications:

Pump: Triplex w/Vibra-pulse®

Pressure: 1500 psi

Flow: 1.7 gpm

Motor: 1-1/2 hp 13 amp w/GFCI

Hose Reel: Swivel, drag brake, and reel lock, 150 ft. x 1/4" hose capacity

Weight: 111 lbs. (50 kg)

Dimensions: 28" L x 15" W x 34" H (14-1/2" H w/o Reel)
(71 cm x 38 cm x 86 cm)
