

Sectional Sewer Rods

Cutters for 1/4" x 6 Foot Rods

All parts are coated to resist corrosion.

SE-1 – Corkscrew for 2" Pipe 
Used to start water flowing.

SE-2 – Diamond Head 
For small, grease packed waste line.

SE-3 – Root Cutter 
Shears tough roots and breaks up hard packed stoppages.

SE-5 – Corkscrew for 4" Pipe 
For clearing roots, grease, and more.

SE-6 – Pick-up Tool 
Retrieves broken rods or tools.

SSRC – Sectional Rod Coupling
Sectional Rods assemble at right angles and cannot come apart in the line.

SE-8 – Assembly Wrench 
Used with Turning Handle for coupling and uncoupling rods.

SE-9 – Turning Handle 
Provides great leverage in boring, pulling or pushing while maintaining tension.

Municipal Sewer Rods

5/16" Sections and Cutters

All parts are coated to resist corrosion.

3MSR – Municipal Rod
39" x 5/16" Section with Coupling

MSRC – Municipal Rod Coupling
With solid wall between end opening for easier connecting.

M-21 – Municipal Rod Turning Handle 
Provides great leverage in boring, pulling or pushing while maintaining tension.

M-24 – Assembly Wrench 
Used with Turning Handle for coupling and uncoupling rods.

M-27 – Corkscrew for 2" Pipe 
Used to start water flowing.

M-28 – Diamond Head 
For small, grease packed waste line.

M-29 – Root Cutter 
Shears tough roots and breaks up hard packed stoppages.

M-31 – Pick-up Tool 
Retrieves broken rods or tools.

M-32 – Corkscrew for 4" Pipe 
For clearing roots, grease, and more.

M-4HDB – 4" Heavy Duty Saw Blade 
Heavy gauge steel blade has teeth in front and back to chew into roots going into and coming out of the line. Available in 4", 6" and 8" sizes.

M-6HDB – 6" Heavy Duty Saw Blade
