**Accessories**

**Flexicore® Cable**

*Wire Rope Center Construction*

Heavy-gauge wire coiled tightly around 49-strand aircraft-type wire rope and heat treated. Has unequalled strength and the right amount of flexibility. So tough it carries a one-year warranty against defect or breakage.

Flexicore Patent Nos. 2,244,735 and 2,849,870

**Sectional Cables**

Sectional cables for the Root 66, I-95, Model 88 and Rodrunner snap together in a second and are taken apart quickly with a coupling wrench or key. The open coils screw into the line making it easier to clear long lines with less effort. They come in all-purpose Flexichain which has a chain center, or stiffer Proflex which has a spring center, and a hollow style. They’re available in a variety of lengths and connectors for General and competitive brands. With the more recently developed "G" connector, no torque is put on the locking pin when running in reverse, making it a more durable coupling.

---

**Snake Oil Plus™**

Rust inhibitor and deodorizer protects your sewer cables and equipment. Keeps debris from sticking by creating a virtually non-stick surface. Great for use on concrete and construction equipment, and more. Lemon Scented—100% Biodegradable—Eco Friendly.

**GT Cable Guide Tube**

Adds safety when you can’t get machine close to drain opening. 30” long x 1-1/4” diameter spring.

**GTE Guide Tube Extension**

Five foot extension attaches to the Cable Guide Tube. Made of 40” conduit with 24” spring end.
