

# Get the Point

## SuperSlice™

**A BETTER WAY TO CUT PLASTIC TUBING**

A patented V-point blade pierces hard or soft plastic tubing, then slices through to give a clean, easy cut with virtually no tube deformation. The blade is offset to give you powerful penetrating action with a minimum of force.

Use it on PVC, CPVC, irrigation pipe, plastic or rubber garden hose, and plastic electric conduit. One squeeze does the job. Ergonomically designed handles give you a sure grip with lots of leverage. Easily cuts tubing as large as one inch in diameter.

Try SuperSlice on a piece of PVC and you'll never want to let go of it.

***SuperSlice...the blade gives you the edge.***

***The toughest tools down the line.™***
