

Uni-Stand™

Make Drain Cleaning Jobs Easier

Save your arms when working under sinks, inside kitchen cabinets, and in other tight spaces. The Uni-Stand supports your hand-held drain cleaner while you're working in tight spaces.

It's easy to use. Just slide the clamp around the drill motor and lock it in place for safe, solid support. Adjust the length of the leg to the height you need to work comfortably. Then rock your machine forward and back as you feed the cable into the line.

The Uni-Stand fits General's popular Super-Vee®, Power-Vee®, Handylectric®, and BD Drain Gun™. All are ideal for unclogging sinks, tubs, and laundry drains. The Uni Stand works with competitive hand held drain cleaners as well.

Uni-Stand securely supports your hand-held drain cleaner. Just rock your machine back and forth as you feed the cable into the line.

Features:

- Supports hand-held drain cleaning machines for easier operation under the sink.
- Adjustable clamp securely locks around the drill motor for solid support.
- Extendable leg adjusts height of the tool from 11" to 19-1/2" for more comfortable operation.
- Rock machine forward and back as you feed the cable into the line.
- Works with General's Super-Vee, Power-Vee, Handylectric and BD Drain Gun, as well as competitive machines.
- Made in USA.
