

Drain-Rooter PH™

The Clean Machine

Scan to see webpage

The Drain-Rooter PH is a real labor-saver on long jobs, or when working in cramped areas where the weight of the machine could be burdensome. Equipped with a variable speed power cable feed and variable speed motor, the Drain-Rooter PH makes drain cleaning jobs cleaner and easier.

It feeds and retrieves the cable at up to 16 feet per minute. A four foot guide hose eliminates cable whipping, dirty fixtures, and messy floors.

The drum speed can be varied by changing the pressure on the foot pedal. The Drain-Rooter PH can be operated in both horizontal and vertical positions to get closer to the drain opening.

A quick-change cartridge system allows you to switch to different diameter cables without pulling the old cable out of the drum.

The drum holds up to 50 ft. of 1/4" or 5/16" cable or 35 ft. of 3/8" cable. Of course, the cables are super-tough Flexicore® with a wire rope center.

Key Features

- Variable speed power cable feed drives and retrieves cable at up to 16 ft. per minute.
- Four-foot guide tube keeps hands and job site clean.
- The drum speed can be varied by changing pressure on the foot pedal.
- Quick-change cartridge makes switching cables clean and easy.
- Flexicore® wire rope core cables for greater strength and durability.
