“ This tool is a great addition. It allows my staff to quickly address issues with a far greater success rate than with any previous equipment. ”

Tom Stegemann,
Maintenance Supervisor for Festus School District

Looking for a cleaner way to clean drains? The Model DRZ-PH is the answer. Light and powerful for a machine of its size, the Model DRZ-PH is ideal for clearing clogged sinks, tubs, and laundry drains in 1-1/4" to 3" drain lines up to 50 feet long.

The variable speed power cable feed gives you complete control as it feeds and retrieves the cable at up to 16 ft. per minute. The four-foot guide tube means you never have to touch the cable so your hands, and the jobsite, stay clean.

Operate the machine horizontally on the kitchen counter or vertically on the floor next to the tub. The silent motor won't disturb your customers while on the job. Use the pneumatic pedal to keep your hands free to control the feed and guide hose.

The rust resistant aluminum drum carries up to 50' of 1/4" or 5/16", or 35' of 3/8" Flexicore wire rope center cable. A quick-change cartridge system allows you to switch to a different diameter cable without pulling the old cable out of the drum.

Weighing as little as 30 lbs. this light-weight machine is easy to handle. Use the carrying handle on top to carry to and from the job.

Key Features

- Variable speed power cable feed drives and retrieves cable at up to 16 ft. per minute.
- Four-foot guide tube keeps hands and job site clean.
- Quick-change cartridge makes switching cables clean and easy.
- Band-It™ splashguard minimizes excess water spray from the spinning drum.
- Silent motor won't disturb your customers while on the job.
- Flexicore® wire rope core cables for greater strength and durability.
