

Speedrooter 92®

Job Tested Tough

Scan to see webpage

Contractors know that the Speedrooter 92 can really take a beating – from its frame braced at key stress points to General's exclusive Flexicore® wire rope center cable that's so tough it carries a one-year warranty.

The Speedrooter 92's field tested design offers easy handling. One person can load it onto a truck, as the machine slides smoothly from the loading wheel, to the handle, to the stair climbers, and finally to the wheels. The adjustable height handle can be reset to be three inches longer or more compact, depending on your preference.

With the driving and pulling power for long, tough jobs, General's Power Cable Feed easily handles 3/4" and 5/8" cables. To adjust to different cable sizes, simply turn the knob on top of the feed. The screwdriver stays in the tool box.

The drum holds 100 feet of 3/4" or 5/8" Flexicore® cable to clear 3" to 10" drain lines. The inner drum and self-aligning Flexitube™ distributor tube reduces cable tangling.

“It's my workhorse. Speedrooter means service with a Capital S!”

Carl Helt, Helt Plumbing

Power Cable Feed

A variable speed power cable feed attachment makes feeding and retrieving the cable much easier. It quickly adjusts between 5/8" and 3/4" cables without the need for tools.

Truck Loading Wheel

One person easily loads the Speedrooter 92 onto a truck. The swept-back handles and loading wheel give you the needed leverage.

Key Features

- Clears 3" through 10" drains up to 100 ft. down the line.
- Variable speed Power Cable Feed drives and retrieves cable at up to 20 ft. per minute.
- Adjustable height handle can be 3" taller or more compact.
- Features stair climbers, 10" ball bearing tires, truck loading wheel and tool box.
- Flexicore® wire rope core cables for greater strength and durability.
