Gen-Eye POD ®

Just Grab it and Go!

Always easy on your back and your budget, the versatile Gen-Eye POD® video pipe inspection system features Wi-Fi inside. Wi-Fi lets you use your own tablet or smartphone to record the inspection and send it to your customers on the spot or back at the shop.

The lightweight, compact Gen-Eye POD combines camera, reel and monitor in an all-in-one package. You get a large 7" LCD color monitor in a padded case mounted on a flexible gooseneck that swivels to give you the best viewing angle, wherever you're working.

Just grab it and go! The full size Gen-Eye POD features a color self-leveling camera and 200 ft. of Gel-Rod® for trouble-shooting 3" to 10" drain lines. The compact MINI-POD carries 125 ft. or 175 ft. of push-rod and color self-leveling mini-camera for inspecting 2" to 3" drain lines. The tough steel frame can be operated vertically or horizontally, so you can handle nearly any application.

There's lots more, like the LED Dimmer Control, both AC and DC power cords, 2", 3" and 6" Trap Skids, and a 512 Hz transmitter.

with WiFi

> **We handle lots of residential and light commercial work, and I wanted a tough, compact video package to inspect the 1-1/2" to 4" lines of our apartment-maintenance customers.**
>
> James Capelli, Capelli Plumbing
