

# JM-3055™ Gas Water Jet

**The Most Flow You can Get without a Holding Tank**

Scan to see webpage

The JM-3055 has the power to clear your most stubborn stoppages, including grease, sand and ice. Its 3000 psi, 5.5 gpm triplex pump has the thrust to pull the hose down long runs, the pressure to cut through tough stoppages, and the flow to flush them away. In fact, the JM-3055 has the highest flow rate available without requiring a holding tank. It's driven by a 480 cc Briggs and Stratton Vanguard engine with electric start. The pump features Vibra-pulse® on demand to help the hose slide around tight bends and down long runs.

The JM-3055 is well balanced so that with little effort, the machine can be tipped back on its rear wheels to more easily maneuver it into position. A removable 300 ft. capacity hose reel with drag brake, reel lock, and swivel is mounted on a heavy duty frame with four, 13 inch "Flat-Free" foam core tires. A wheel brake keeps the machine solidly positioned on the job. Complete with spray wand.

“ JM-3055 turned day-long work into a few-hour job. That's the sort of equipment efficiency and reliability that lets us do more business in a day! ”

Bob Rux,  
Aberdeen Plumbing  
& Heating Services, Inc.

## Key Features

- Clears 3" to 10" lines, up to 300 ft. long.
- 480 cc (16 hp) engine with low oil shut off, and electric start.
- 2 to 1 Gear reducer extends pump life.
- Heavy duty 3000 psi, 5.5 gpm pump with Vibra-pulse®.
- 300 ft. capacity removable hose reel with reel brake.
- Rides on four flat-free foam core tires and heavy duty easily maneuverable frame.
- Optional Cart-Reel for clearing indoor drains.
