

Power-Vee®

With Power Cable Feed – Works Great in Tight Spots

Scan to see webpage

“ Our maintenance tools must perform on demand. That’s why General’s hand-held Power-Vee anchors our drain cleaning tasks. ”

Rob Hoelscher, Maintenance Pro,
Bear Creek, Colorado

When working under sinks or in other awkward places, the Power-Vee is like having an extra hand. Just squeeze the feed lever, and three offset rollers in the automatic feed grip the cable and drive it into the line.

It’s easy to use. To feed the cable, start the Power-Vee motor and squeeze the feed lever; to retract, reverse the motor and squeeze. The Power-Vee feeds 3/8" cable at 16 feet per minute.

The Power-Vee handles 1/4" through 3/8" cables without any need for adjustment. Squeezing the feed lever brings the rollers into solid contact with the cable, with minimum effort by the operator.

Our Dyna-Thrust™ bearing system helps carry the weight of the drum, significantly reducing wear on the motor shaft bearing and extending the life of the tool. Also adding to the Power-Vee’s durability is the heavy-gauge stamped aluminum drum. Of course the cables are Flexicore® – with an integral wire rope center. Nobody makes cables like General.

Cartridge Refill

Change cables faster by changing cartridges. They’re convenient, clean, and inexpensive. It can be used for the Power-Vee, Super-Vee or Handyelectric.

Key Features

- Power cable feed drives and retracts cables at up to 16 feet per minute.
- Quick-change cartridge makes switching cables clean and easy.
- Dyna-Thrust™ bearing system for longer tool life.
- Band-It™ splashguard minimizes excess water spray from the spinning drum.
- Flexicore® wire rope core cables for greater strength and durability.
