

JM-1000 X Mini-Jet™

Balance and Power

"The Mini-Jet is perfect for spot-clearing kitchen stoppages. The compact size makes it great for one-man operations and it's perfect for much of the work I do!"

Craig Casteen,
Casteen Plumbing & Repair

Ideal for clearing clogged sinks, tubs, and laundry drains, the lightweight, compact JM-1000 X Mini-Jet™ gives you 1500 psi of cleaning power, yet weighs just 23 lbs. Clear grease, sand, and ice from 1-1/2" to 3" lines up to 50 feet long. The pump and motor assembly are safely contained in a rugged metal diamond plate case that can handle abuse in the field. The portable package takes little space in your truck, too.

Water jets use a stream of high-pressure water that hits the stoppage and flushes it away. The thrust of the nozzle drives the hose down the line and gives you wall-to-wall cleaning action. Vibration helps the hose slide around tight bends and farther down the line. This is what separates General's Jet-Set from ordinary pressure washers. It breaks the initial tension between the surface of the hose and the walls of the pipe, increasing cleaning power.

The JM-1000 X is easy to carry to and from the job. The pump and motor are centered in the metal case allowing the jetter hose, water supply hose, and power cord to wrap neatly around it to create an ergonomically balanced unit. The efficient pump/motor assembly generates 1500 psi at 1.4 gpm, yet pulls only 13 amps.

Pound for pound and dollar for dollar, the Mini-Jet is a great (and small) investment.

Lightweight and compact

The Mini-Jet weighs just 23 lbs. so it's small enough to store conveniently in your truck.

A balanced approach

The pump and motor are centered in the metal case allowing the jet hose, water supply hose and power cord to wrap neatly around it to create an ergonomically balanced unit.

Everything you need but the weight

JM-1000 X Mini-Jet includes Super-Flex™ high pressure jet hose, 4 pc. nozzle set, nozzle cleaning tool and integral stainless steel braided water supply hose.

Key Features

- Compact, lightweight unit weighs just 23 lbs. to easily carry it to and from the job.
- Clear grease clogged sinks, tubs, and laundry drains.
- Generates 1500 psi at 1.4 gpm, yet pulls only 13 amps.
- Rugged metal diamond plate case handles abuse in the field.
- Ergonomically balanced to easily carry it to and from the job.
- Optional high-performance hose with stainless steel braid/Teflon core for better cleaning power.

JM-1000 X Mini-Jet™ Options

Jetter Nozzles

Whether you're up against grease, sand, or ice, there's a General nozzle that will cut through it. Some are designed for maximum penetrating power, some are designed to pressure wash the pipe walls, and some are designed to go around sharp bends. All of General's nozzles are made of hardened stainless steel to last longer.

Down Head Nozzle

The Down Head Nozzle takes the hose down Tees and around difficult elbows. The Down Head is available for 1/8" and 3/16" hose to clear 1-1/2" to 2" lines.

(Catalog # JNDH-1)

Jetter Hose

Tough high-pressure jetting hose comes in a variety of lengths and diameters. The JM-1000 X Mini-Jet comes with Super-Flex™ 1/8" hose in 30' or 50' lengths to clear 1-1/2" to 3" drain lines.

Or try the optional high-performance 3/16" Stainless Steel braid hose with a Teflon core for better cleaning power. It has the flexibility to get through 1-1/2" to 3" lines and is available in 30' and 50' lengths.

Spray Wand

Get a spray wand and use your jet for high pressure washing and cleaning applications. Spray wands are made from durable components. The trigger (with trigger lock button) has a light touch, yet can withstand rough usage. It comes with two wands – the Turbo Lance and the High/Low Lance with adjustable spray nozzle.
