

JM-2900 Gas Water Jet

Big Jet Power in a Portable Package

Scan to see webpage

The JM-2900 is a powerful step up from electric water jets. It's lighter and more maneuverable than larger gas jets, yet maintains the same pressure and flow rate of its big brothers. It's driven by a 389 cc (13hp) engine connected directly to a 3000 psi, 4 gallon per minute triplex pump with Vibra-pulse® on demand.

The 200 ft. capacity hose reel with drag brake, reel lock, and swivel is mounted on a very maneuverable heavy duty frame with two, ten inch "Flat-Free" foam core tires. A passive brake keeps the machine solidly positioned on the job.

An optional spray wand is available.

Other jettors are available. Visit drainbrain.com/jets

“ I absolutely love my JM-2900. It's a serious next level investment for me, and it's been a game changer for my drain cleaning. ”

Mary Anne Bowcott, The Lady Plumber

Key Features

- Easily maneuverable gas jet is great for maintenance work.
- 389 cc (13 hp) engine with low oil shut off.
- 3000 psi, 4 gpm pump with Vibra-pulse®.
- 200 ft. capacity hose reel with reel brake.
- Rides on two "flat-free" foam core tires and heavy-duty frame.
- Optional Cart-Reel for clearing indoor drains.
