

Gen-Eye Macro™

Pipe Inspection System

Scan to see webpage

Everything you need for pipe inspection in a compact, portable package.

General Pipe Cleaners' new Gen-Eye Macro™ video pipe inspection system combines a high-definition (high-def) self-leveling color camera, 200 ft of push-rod for inspecting 2" to 4" lines, 8" High-Def LCD monitor, distance counter, touch screen keyboard for titling, Telestrator, 4X digital zoom, date and time stamp, sonde for camera location, and Gen-Pack™ battery adapter for remote operation.

The Gen-Eye Macro Command Module with high-def recording capability. It supports USB to Flash Drive recording with a capacity of up to 64GB (that's approximately 32 hours of inspections). As well as Wi-Fi video recording and snapshot features using your smartphone or tablet. Just use General's free app.

The touch screen keyboard allows you to add text to your videos, for instance your company name, project name, operator, pipe material, pipe dimension, etc. And the Telestrator allows you to unleash your inner Madden. Use the stylus to draw on the screen to highlight items of interest during your pipe inspection.

The Gen-Eye Macro Command Module is compatible with both General's new high-def cameras as well as General's non-high-def camera systems.

The toughest tools down the line.™

Gen-Eye Macro™

Pipe Inspection System

Features and Functions

High-Def 8" LCD Monitor

Large color monitor gives you crisp, clear images to make it easier to see the picture in high-def while doing inspections.

High-Def Self-Leveling Color Camera

Automatically keeps picture right side up as the camera glides through the line. It's just 1.22" in diameter with 12 Bright-White LEDs to clearly illuminate the pipe. Light intensity is controlled by a dimmer on the Command Module.

Video and Photo Recording

With high-def recording capability, the Macro supports USB to Flash Drive recording of video or photos with a maximum capacity of 64GB (that's approximately 32 hours of inspections).

Wi-Fi Transmitter

Wi-Fi lets you stream the inspection to your own Smartphone or Tablet. You can record it or send it to your customers on the spot or back at the shop. Just use General's free app.

Touch-Screen Keyboard Titling

Allows you to add text to your videos, for instance your company name, project name, operator, pipe material, pipe dimension, etc.

Telestrator

Unleash your inner Madden. A Telestrator is a tool that lets you draw freehand sketches, lines, and shapes directly over a moving or still video image in real time. Use the stylus to draw on the screen to highlight items of interest during your pipe inspection.

On-Screen Display features

Includes 4X Digital Zoom, time and date stamp, recording duration indicator, distance counter in feet or meters, and how much free space on the Flash Drive is available.

Built-in Voice-Over Recording

Internal microphone lets you add commentary to your videos.

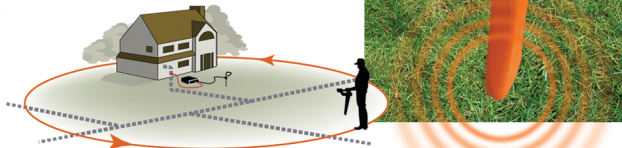

Built-in Gen-Pack™ Battery Adapter

The Gen-Pack™ Battery Adapter is mounted on the back of the Command Module. It lets you operate your sewer inspection camera system in remote locations where access to power is limited. The camera system can operate for up to 12 hours in remote locations with limited access to power. Compatible with Milwaukee M18 battery or equivalent. Battery and charger are not included.

Gen-Eye Hot-Spot™ Pipe Locator (GL-100)

Makes camera locating easy. Its total field antenna array and on-screen icons lead you right to your target, without the long learning curve. Whether you're an experienced pro or a first time user, you can quickly locate inspection cameras, sondes, active power lines and utility lines with pinpoint accuracy.
